PRESENTATION OF THE INSTITUTE

HISTORY

ASP G. MAZZINI has been present in the territory of Cinisello Balsamo since the first postwar period as a design school; it was then formally constituted as ASSOCIATION in 1974, acquiring legal personality by the Regional Committee Resolution on 7th February 1990.

It was in 1912 when the first core was founded: a school of professional design, "under the high patronage of the municipality", but it was not before the second postwar period that a better defined organization took shape, thanks to a stronger support of the municipal administration and of local philanthropic entrepreneurs.

In 1974, G. Mazzini Vocational Schools Association (ASP G. Mazzini) was established, with the purpose of offering first education, professional updating, specialization and professional requalification, the development of relationships with public and private Entities, in order to promote initiatives for youth and adult education and career counseling, according to the demand of the territory and the firms.

In 1988, ASP G. Mazzini was honored with the special *Spiga d'Oro* award by the Municipality of Cinisello Balsamo, with the mention of Meritorious Institute for the cultural and civil development of the city.

Since 1974 up to now, ASP G. Mazzini has extended its presence organizing different courses in the mechanical, automotive, electric, electronic, IT, social and health care, hairstyle, beautician, administrative, catering and bar service areas.

In 2014, we celebrated our 40th anniversary of activity.

The main areas we work in are:

**AUTOMOTIVE
MECHANICAL
ELECTRIC-ELECTRICIANS HAIRSTYLE
BEAUTICIAN
CATERING-CHEF'S ASSISTANT**

**BAR SERVICES
PERSON CARE (SOCIAL WELFARE AND
HEALTHCARE ASSISTANTS)**

OUR

MISSION, VALUES AND OBJECTIVES

G. MAZZINI VOCATIONAL SCHOOLS ASSOCIATION works in the fields of education, training and active labor market policies, having as the top priority of its action the growth and global development of people.

a) **Organization and management** of courses of professional education and training, and of professional updating and specialization.

b) **Implementation of activities** aimed at providing "Employment Services", in particular:

- informing and guiding workers, firms, school and educational institutions, and the Public Administration with regard to available services for the access to the labor market;
- fostering the match between supply and demand in the labor market;
- preventing and hindering long-term unemployment through initiatives of career counseling and guidance in the labor market;
- supporting the development and defense of equal opportunities for both men and women in the access to the labor market and in the professional improvement;
- promoting customized measures in favor of workers, with a special attention to disadvantaged workers, including cultural mediation services for foreign workers;
- developing suitable measures of guidance for disabled people in the integration into the labor market;
- supporting workers' mobility in the labor market and territory;
- guaranteeing the monitoring of the labor market flows.

c) **Realization of initiatives** for the professional requalification, updating and specialization of people already employed in both the private and public sectors.

d) **Preparatory courses** aimed at the accomplishment of qualifications needed to access the public employment.

e) **Development and maintenance** of relationships with public and/or private management Entities having the same objectives, and with study centers, in order to promote updated information about the most advanced techniques and tools in the field of vocational education, with particular regard to the use of IT techniques and tools.

f) **Participation in initiatives** aimed at making more and more close the links between vocational education and the labor market.

g) **Publication and circulation** of studies and researches regarding cultural, educational and training issues.

h) **Practice of business activities** addressed to the public and functional to the accomplishment of the Association's purposes.

i) **Participation in/acquisition of company** shares in Entities/Companies considered functional to the accomplishment of the Association's purposes.

l) **Any other activity**, related or accessory to the statutory ones, connected and/or functional.

The values that lead our work

Coherence and reliability – we do what we promise

Transparency and reciprocity – we declare, broadcast and share roles, rules and responsibilities

Equal opportunities – that means respecting the differences

Creativity and innovation – we promote new things in order to improve ourselves and spread culture and research

Connections between people, institutions, cultures – we create dialogues and share projects

Our goals

Meeting the needs of young and adult people, workers, firms, families and partners

Accompanying people in the integration into the labor market

Following the change in order to become its protagonists and to develop suitable qualifications and competences
